

HSMT PRESENTS

FACULTY OF
HISTORY

A THEATRE KNOWLEDGE

A black silhouette of a microscope is centered on a red background. The microscope is positioned on a black trapezoidal base. From the eyepiece, a beam of light shines upwards, illuminating the text 'A THEATRE KNOWLEDGE' above. From the objective lens, a beam of light shines downwards, illuminating the text 'POSTGRADUATE CONFERENCE 2022' on the base. The background is a vibrant red with several diagonal beams of light radiating from the center, creating a starburst effect. Small white stars are scattered throughout the red background.
